

A new state-of-the-art health facility is coming to the northern suburbs

Dear resident,

The Victorian Government is investing \$33 million into the northern suburbs of Geelong to provide state-of-the-art healthcare facilities. These facilities will meet the growing needs of the community and provide access to modern and advanced services. The health of families and children is a top priority and building world leading health facilities is one of the many ways the Victorian Government is building a healthy Victoria.

The new Barwon Health North facility will be located in Norlane and will be built on a portion of the Northern Arts Recreation and Community (ARC) site that also houses the Waterworld Aquatic Centre, Corio Library and Centenary Hall.

This location was chosen after listening to the community, consulting with users and working with the Council. The new facility is aligned with the City of Greater Geelong's masterplan to redevelop the site into an integrated health and well-being precinct and best placed to provide high quality, accessible healthcare close to the Princes Highway and public transport.

Construction will begin soon

Early works on the site will begin late November 2017. We anticipate only minor impacts as the site is prepared for construction next year.

Thank you for your understanding and patience while we build Geelong's newest healthcare facility. We will continue to keep you informed and do our best to minimise your inconvenience during early works.
